FIBERON® ANNOUNCES DISTRIBUTION PARTNERSHIP WITH RUSSIN LUMBER CORPORATION

New partnership offers increased distribution in the northeast for Fiberon composite decking, PVC decking and composite railing solutions.

NEW LONDON, N.C. (August 19, 2009)—Fiberon®, a leading manufacturer of composite decking, PVC decking and composite railing and fencing solutions, announces a partnership with Russin Lumber Corporation to distribute Fiberon brand decking and railing. Russin serves Connecticut, Maine, Massachusetts, New Hampshire, New Jersey, New York, Pennsylvania, Rhode Island and Vermont.

“We are very pleased to have entered into a distribution agreement with Russin,” said Bill Ross, Vice President of Sales for Fiberon. “We like them because of their strong reputation for getting things done. Many talk about what they can do, but Russin has a history of delivering. As this turbulent economy distills the roles of distribution and manufacturing, we find in Russin a partner already well poised to do the unique work of distribution. This competence allows Fiberon to focus our sales efforts downstream, at the contractor and deck builder level where our quality products make sense and add real value.”

“We are very excited about the opportunity to partner up with Fiberon,” said Walter Hock, Russin Lumber Corp.’s Vice President of Sales and Marketing. “Fiberon combines innovation in manufacturing, environmental conservation, marketing and product development to produce what we feel are the highest-quality products in the industry.”

With the PermaTech™ surface innovation for Horizon™ composite decking and the superior Lumenite™ surface for Sensibuilt™ PVC decking, Fiberon offers the latest in technologies to raise the bar in alternative decking products. Both Horizon and Sensibuilt provide contractors and their clients superior stain, fade, mold and scratch resistance and are the only products in the alternative decking industry with a 10-year stain and fade resistance warranty.

Fiberon professional products are sold nationwide to professional contractors and dealers through a national network of distributors like Russin. To learn more, visit www.fiberondecking.com or call **1-800-573-8841**.

About Fiberon

Fiberon is a leading manufacturer of composite and PVC decking, railing and fencing products used in homes and light commercial construction across North America. Part of the Fiber Composites, LLC family, the Fiberon brand product line is designed specifically for professional contractors. Fiberon’s polymer chemists and extrusion professionals employ the latest technology to constantly innovate, using the finest raw materials coupled with leading manufacturing processes to ensure best-in-class quality. The company was founded in 1997 and is privately owned with operations in North Carolina and Idaho.

About Russin Lumber Corporation

As the Northeast’s premier distributor of both traditional and alternative building products, Russin Lumber offers innovative solutions for every building need. The company distributes brand name wood products and alternative non-wood products with a fleet of 17 tractor trailers. Russin’s re-manufacturing facility has the ability to create any pattern profile on its wide variety of pine and cedar boards. The company also operates a state of the art factory finishing facility. This PPG/Olympic authorized operation specializes in one- and two-coat job lot projects, and high volume production runs of house trim. For more information, reach Russin Lumber at 1-800-724-0010, or on the Internet at www.russinlumber.com.
