Fiber Composites Hires Otto Kinzel IV Decking and Railing Specialist

New London, NC – August 6, 2009 – Fiber Composites, a leading manufacturer of composite decking, railing and fencing, has hired Otto Kinzel as Decking and Railing Specialist for the New England sales region. Otto will be responsible for managing and increasing the network of decking contractors in the New England market.

“Otto has a track record for bringing value, hard work and expertise to the dealers in the northern New England Market. His energy and product knowledge are real assets but it is his commitment to helping dealers and deck builders build profitable businesses using Fiberon products that sets him apart,” stated Bill Ross, Vice President of Sales. “We are pleased Otto has joined the Fiberon team. We are actively seeking three additional Decking and Railing Specialists in the NE market and Otto will play a key role in their success.”

Otto previously held the position of Decking Specialist/Outside Sales Representative for Parksite of South Windsor, CT. His role for the past five years has been on product training for dealers’ sales staff and deck builders and merchandising new products. Prior to Parksite, Otto worked for Maine Ornamental Woodworkers in Eliot, ME in Inside Sales and Quality Control. Otto earned a Bachelors of Art in English with a Minor in History from Plymouth State College.

The Fiberon product family is sold to professional contractors and dealers through a national network of distributors. To learn more, visit www.fiberondecking.com, call 1-800-573-8841, or send e-mail to info@fibercomposites.com.

About Fiberon

Fiberon is a leading manufacturer of composite and PVC decking, railing and fencing products used in homes and light commercial construction across North America. Part of the Fiber Composites, LLC family, the Fiberon brand product line is designed specifically for professional contractors. Fiberon’s polymer chemists and extrusion professionals employ the latest technology to constantly innovate, using the finest raw materials coupled with leading manufacturing processes to ensure best-in-class quality. The company was founded in 1997 and is privately owned with operations in North Carolina and Idaho.
